

A big Congratulations to our Paraplanner, Dionne Wilson-Fairwade who took on the challenge of running a gruelling 56 miles in the month of February, that's 2 miles EVERY DAY, to raise money for Cancer Research.

She said 'I decided to sign up along with thousands of others to run 56 miles in February for Cancer Research UK. My husband lost his best friend to Cancer, I have family & friends who have battled Cancer and my step mum has been fighting it for a number of years. She has been rushed to hospital by ambulance a few times during COVID and my Dad has been unable to accompany her. The toll it takes on the sufferer and close family is heart breaking and the treatment for Cancer is brutal. There is no vaccine for Cancer, so Research is really important.'

You can see the pleasure on her face on achieving the last mile.

Well done Dionne!!!
